found the following review helpful. GoodBy Leslie ChampThis is a good text with photographs of military medals from selected nations. I was not looking for descriptions, but rather photos. There are many that should have been included and several orders and decorations that could have been left out. It all depends what the collector is looking for!!!0 of 0 people found the following review helpful. Five StarsBy barbara jamesawesome for research for medals for term papers

At last the book on Military Medals that collectors have been anxiously awaited! Hundreds of photographs of rare, seldom seen medals, decorations and orders, as well as those awards commonly encountered, with their intricate details captured in spectacula
