The best calendar on vintage costume!By A CustomerThis beautiful calendar features twelve different collections which have historic costume from around the world. One of the best features of this calendar is that there is a balance between costume of ethnographic groups and that of industrialized cultures. Each curator provided a brief synopsis of their collection, as well as complete information as to how to contact the curator for more information. Not only is this a very beautiful and professionally well done calendar, but it provides for scholarly contacts as well.
