I would not put Barbie in the same category as the 1950 dolls, not would I consider Patty Play Pal as a glamour doll. There were a couple of other dolls that were included that I would not have considered glamour either. What I wanted to see was the great clothing the 1950 dolls are known for and this book lacked that. 0 of 0 people found the following review helpful. Another excellent book from the Judds By B. Graupmann I was impressed by the sheer number of "Glamour" dolls that were available in the 50's, some of which I had not thought of as such. Again, the Judds have done their homework and compiled a lot of information in a small package. I always look at the 'Identification' section first; it's full of very useful tidbits and lists..... Barbie look-alikes, dolls with extra joints, dolls with unusual construction, dolls with swivel waists, dolls with high-heeled feet, etc, etc. They also include lots of info and pictures about dolls' wardrobes and available accessories, and features/ characteristics that will help with ID. I own the Judds best known books on composition dolls, hard plastic dolls, etc. and I have never been disappointed with any of them. I'm glad I've added this one to my doll library. If you have dolls

you want to identify or are looking for info on a particular doll's additional wardrobe, or which dolls had fur coats in their wardrobes, you really should check this one out. 0 of 0 people found the following review helpful. Five Stars
