Linda Greenberg : Greenberg's Operating Instructions with Layout Plans for Lionel Trains before purchasing it in order to gage whether or not it would be worth my time, and all praised Greenberg's Operating Instructions with Layout Plans for Lionel Trains:

0 of 0 people found the following review helpful. Five StarsBy CustomerGreat1 of 1 people found the following review helpful. Very helpful book for novice train enthusiastBy Z-man 50This book is very nice in that it teaches how to operate and maintain many of the engines, cars and attachments that lionel makes. It also shows many layouts with how many pieces of each track required for each layout. Very nice.
