The theme of the book is to assure the believers in these times of the apostasy, or false teachings, that are running rampant in the world then but also in our times. These apostates and their beliefs have entered into our society and the churches unnoticed, infiltrating the congregations. This infiltration has permeated not only the membership but also into the church leadership and its ministers. The apostates' destruction has exploded onto the scene in an effort to dilute the Word of God. The movement destroys the church's foundation, leaving in its wake an irrelevant church!
