Huxford : Huxford's Old Book Value Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Huxford's Old Book Value Guide:

0 of 0 people found the following review helpful. The cover looks great.By JcsI thought that it was filled with photos of books. You have to know the author to locate the book that you are looking for. I am going to keep it. The cover looks great.24 of 24 people found the following review helpful. How Old is Old?By K.D. KeenanWhen I purchased Huxford's Old Book Value Guide, I imagined that the books that were covered might be older than those written by Len Deighton and Marian Zimmer Bradley. There's lots of stuff from 1970 on, but coverage of genuinely old books is very sparse. The title of this guide is extremely misleading, but if late 20th Century books are your area of interest, you might find this useful. I didn't.0 of 0 people found the following review helpful. disappointedBy Deb Cassidy MeadowsI was disappointed with this book, I have nearly 20 antique book volumes I was needing to know the value

of and I found only 2 of them listed in this book. I feel this purchase was a waste of my money.

Now you can find the value of those dusty volumes, and even make money selling them. If you are searching for that out-of-print copy or the latest novel, the booksellers will help you. The format is simple and easy-to-use, and collectors everywhere swear by this book! This edition also features informative text about the Internet and how it has changed the second-hand book trade.
