Lar Hothem : Indian Artifacts Of The Midwest, Book V before purchasing it in order to gage whether or not it would be worth my time, and all praised Indian Artifacts Of The Midwest, Book V:

0 of 0 people found the following review helpful. Great Book By hondomc My father in law and brother in law really like it! 0 of 0 people found the following review helpful. Just as described. Photos are black and white, ... By Customer Just as described. Photos are black and white, all in sharp focus. Only the intro to each chapter will not have pictures. Every other page in the book has at least 3 photos, most of the book has 5 pictures per page. 1 of 1 people found the following review helpful. industry standard By Timothy D. Kelley just because it is one of the INDUSTRY STANDARDS, does not mean it is the best. nor does it mean that it is not. But it will never be a waste of your time perusing this book. the info is accurate, photos very good, and the whole list of his books are equal in quality and value. I would highly recommend it. (it is more about documentation than education).

Lar Hothem's first four books on this subject have been great sellers, and Book V, the first of the series in full color, will sell even better with nearly as many photographs as the first two books combined, and no repeats from any of the other books! There are over 2,150 full-color photographs featuring thousands of specimens from our ancient past. Hothem, widely known for his research and publications in the field of Indian artifacts, gives the collector all the necessary facts about each item featured, such as important details, size, date, location found, and current collector value. Once again this book covers the artifacts found in the heartland of North America, with its primary emphasis on the more common, readily available types, not the museum pieces virtually never seen or found. A new feature of this volume is a section on artifact record keeping. A present-day treasury documenting America's past! 2008 values.

This is the fifth book in Hothem's popular series, and it's loaded with hundreds of types of artifacts. The Paleo, Archaic, Woodland, and Mississippian Periods are covered. Collecting tips are also provided. This is the first in the series to be featured in full-color, and the photo details are sharp! -Edward Teagues
About the Author Lar Hothem was a well-known expert in the field of Indian arrowheads and artifacts. His popular series, Indian Artifacts of the Midwest series has now added its 5th volume. His other titles include Indian Axes Related Stone Artifacts, Indian Pipes, Arrowheads Projectile Points, and Indian Trade Relics. Lar passed away in 2006.
