Jasper Burns : Irish Hammered Pennies of Edward IV - Henry VII, Fourth Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Irish Hammered Pennies of Edward IV - Henry VII, Fourth Edition:

An illustrated guide to the known Irish hammered pennies minted under the English kings Edward IV, Edward V,

Richard III, and Henry VII. This book includes a quick index to coin markings, a detailed chronology, and over 100 coin photos. The FOURTH EDITION presents new design types and mint issues - and introduces an entirely new section on the pennies of Henry VII. Also new is a concordance for the SCBC guides (2003 and 2015) and the Coincraft guide. Includes 25 varieties that are not listed in the new Spink guide. Jasper Burns is the author of many articles about ancient coins as well as more than thirty books, including *Coin Stories (Pietas)*, *Great Women of Imperial Rome (Routledge)*, *Bulla Felix: The Roman Robin Hood (Pietas)*, and *Fossil Collecting in the Mid-Atlantic States (Johns Hopkins University Press)*. "I consider that you have individually tackled a task that most collectors of Irish coins have avoided or been unable to tackle. And the key to this was your identifying that many of these coins were languishing misidentified as English coins, and this combined with the development of the internet coin market ... has meant that you have been able to assemble a lot of examples and have been able to start identifying them by the portraits and styles so that pieces with virtually no legends can now be properly identified as Irish." - John Stafford-Langan
