A Record of Really Dated, Horrible "Jewelry"By AztexWow!Really dated horrible "jewelry" What were we thinking???!90% of the work represented is just stupid and horrendously ugly. It's a bunch of "artists" working in the body adornment field who have lost their minds and think anything you can on your body is jewelry.A good record of the times though but as far as inspiration look elsewhere or you'll be an anachronism.EP0 of 0 people found the following review helpful.
