unknown : L. D. Nimschke: Firearms Engraver before purchasing it in order to gage whether or not it would be worth my time, and all praised L. D. Nimschke: Firearms Engraver:

1 of 1 people found the following review helpful. Reproduced TOO many times! Illustrations are blown outBy DonThis may have been a great book at one time. I purchased a recent brand new printing of this book and this review and my preamble sentence is concerning that edition. I like many gun collectors are amazed at the work of engraver especially the work of the early artist whom used non-power driven tools like Nimschke the subject of this volume. I purchased the book to help put together some design ideas. What I found in the book was rough newsprint like paper, not a shiny archive quality paper. The illustrations have been copied and reproduced so many times the resolution is unreadable for most of the examples. I did find some of the images useful but I would not recommend the book for anything other then to complete a collection. I have not seen earlier examples of this book which may be of better quality if they are a this poorly illustrated I would have given the book a two star rating!0 of 0 people found the following review helpful. L. D. Nimschke , Firearms EngraverBy Andrew BerendtThis book is fantastic. A wonderful large format historical recording of one of America's most prolific and innovative pioneer engravers of fine firearms - made finer by his expert embellishment. I highly recommend this book to afficianados of antique weapons , and their artistic improvements.Andrew Berendt ; Never A Dull Moment Custom Knives0 of 0 people found the following review helpful. Five StarsBy Eli Gracexpensive ==but lots of good pics

Brand new from the publisher in the original shrink wrap, unopened. 108 pages large format book featuring guns

engraved by America's most famous engraver as well as his engraving plates used to create his masterpieces. NOTE: IF you select "standard shipping" this very large and fragile book will not receive proper handling by USPS. You SHOULD select TWO DAY SHIPPING as then it will be shipped boxed and padded via Priority Mail.
