Carole Suppo-Diefenthal, Frédéric Suppo-Diefenthal : Le Casque Allemand: Du M35 au M42 (French Edition)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Le Casque Allemand:
Du M35 au M42 (French Edition):

The German helmet has become a myth over time. Its silhouette has always been a prominent object commonly used on vintage posters or by modern filmmakers. The helmet symbolizes the greatness but also the madness of men. This book delivers most of the secrets of the German helmet known only to a few insiders. Its secrets and details will be described here in the pages revealed in the same manner of an autopsy. The shape of the rivets insignia, through

manufacturers and models. It will cover both the jugular as paints or strapping. This book will provide you with the keys to a good buy and you will avoid the pitfalls of counterfeiters or other hackers who do not hesitate to make false paintings and markings on all models of M35 M42.
