Five StarsBy Roy Zieger Jr.Great book for a great price and shipped fast.1 of 1 people found the following review helpful. Excellent SourceBy VagabondI'm an amatuer collector of animal figurines and planters. just getting started and with the aid of this book I am able to identify my purchases. It helps me tremendously in satisfying my curiosity about each piece. This is the second book I own by the same author, and I plan on getting the others. Of course, there are way too many items out there to all be decribed in just a few books.

Lefton China has fast become one of the most desirable, sought after collectibles on the secondary market today. With a vast number of styles, series, and patterns to choose from, this authoritative volume includes new information on the

history of the George Zoltan Lefton Company. It is a complete guide with descriptions, identifying markings, and current pricing, along with an expanded list of patterns not found in any other book on Lefton China. More than 690 photos document Mr. Lefton's many creations, from figurines to fine china dinnerware. This is an invaluable guide, whether you have been gathering this fine china for many years or are a new collector of Lefton.

About the Author Ruth McCarthy lives in Norwalk, Ohio. This is her third book about Lefton China.
