Nice calendar By someuser It's very pretty and made with high quality material, the photos look great. 7 photos are scenes with lego people and 5 are of some lego set without showing lego people. It has 3 calendars (2013-2015) behind the front cover and a code for a free digital page-a-day calendar from pageaday[dot]com. I totally recommend this calendar. I posted some pictures of each month so I hope that helps with your decision. :) 3 of 3 people found the following review helpful. Besides the great pictures, the layout is very nice and easy to read. By Dan I'm a big Lego fan and that was a big reason for buying this calendar but what I really like about this calendar is the layout and overall design. There are calendars with numbers that are too small or even too big, too much distracting text, etc. This Lego calendar just seems perfect. I can look at it from across the room and I can tell exactly what date it is without getting distracted by anything. The pictures are nice and very sharp and the colors are very nice and vibrant. This is the second year I am using the Lego brand calendar and I plan on using it again next year. 0 of 0 people found the following review helpful. Watch The Year You Buy By carin carlton Nice calendar.... my grandson loves it. I bought this in December of 2014 not realizing that it is a 2014 calendar! He has been writing in it all the activities that he is planning... camping with family etc... None of us realized it was a 2014 calendar until a few days ago. He still doesn't know... he is 7. It's my fault for buying it and not realizing

it was a 2014 calendar but I would think they would have had a 2015 on sale before the 2014 one came up. I ordered 5 different calendars from for Christmas and all the others (as far as I know) are 2015. Live and learn. We at least had a good laugh. It is a good quality calendar if you are in need of last years calendar...
