Derek Edgington : Leviathan (Fist of Light Series) (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Leviathan (Fist of Light Series) (Volume 2):

This being the second book, it tends to be the worst in most series, but I think this was an improvement on the first book, and hope for the continuation of this trend in the books to come from this young author. Love the growth and development we saw in many characters other than Caleb. This, and the previous book, are the types that can get the reader really attached to more than just the main character. Only problem I had was the

amount of spelling or grammatical errors, or the insertion of some unnecessary words on a few occasions, but they were only very minor annoyances and I could easily get past them. Overall a great book and looking forward to more.0 of 0 people found the following review helpful. Vivid and imaginative...By Kenneth L.Derek's command of literary prose and deep, imaginative, world building pull the reader in. The characters are vibrant, and the story richly explored. A great follow up for Caleb Holden from Seven, but it can stand alone. Great weekend book!1 of 1 people found the following review helpful. meh....By Raven RighterWhen reading this it felt good being rejoined with the comraderie of the charecters that I had become invested in from rye last book. Unfortunately there was really only one part of the story that I found interesting which involves a arena. I think if the author had capitalized that part of the story it would getting 5 stars. The ending was so dull and made the main charecter look like such a wimp I found myself skipping pages and skimming most of it. Solid read if you like that kind of thing.

Caleb Holden is a superhuman teen living in San Francisco. He may have learned to control the elements, but fire and brimstone continue to fall on his life. Whether it's vampires, werewolves, gladiator-style arena battles, or the Leviathan, a monster of cosmic proportions— Caleb just can't catch a break. It's a good thing Caleb knows how to roll with the punches, because the light at the end of the tunnel is a long ways off.

About the AuthorI'm Derek Edgington, a graduating senior attending LMU in LA. Sarcasm is my stock and trade; I'm a practitioner of all shades. Pretty much all the way from 4th Grade through high school, you could find me with a book in my hand. Ironically, this was a few years after I was told I had a reading disability. I eventually traded in print books for the sneakier the Kindle app that could be read more easily during class. Although I self-published two books before I went to college (The Seven Leviathan), I haven't published any full-length titles during my time in University. In the late May or early June, I'll publish an Experimental SF/Dystopian novella. And, after a five year break, I'll be publishing the 350-400 page Dark Fantasy: "Immortal: Curse of the Deathless," on May 7, 2016.
