Baird There are some nice features to this collector's folder, but be forewarned to wear gloves when handling it or suffer the consequences of an attractive folder covered with your fingerprints. I bought this for my grandson, but upon receiving it realized that it would look terrible in no time in the hands of a child. He will be getting a different folder for the set of pennies I've put together for him. 6 of 7 people found the following review helpful. Very well made and nice for collections By chris1909-1958 official Whitmans Lincoln cents collection folder. I was skeptical at first on purchasing any Whitmans folder as

several previous reviews were stating it was difficult to insert the coins. However, after receiving I had tried inserting several cents into the folder and they went in pretty easily. If you put one side of the coin down into the insertion and then push slightly on the opposite side it should go in with ease. With the folder being hard covered it should last a long time. 0 of 0 people found the following review helpful. I love Warman's coin folders

I love Warman's coin folders. The hard plastic ensures a quality that the book will last over time. The pockets for these books are much easier to fit into compared to Whitman's in my opinion. The book also arrived faster than expected and I already have about 1/4 of the book filled. Strongly recommend all Warman's folders. Lincoln Cent 1909-1958 Collector's Folder (Warman's Collector Coin Folders)

To do its part in the war effort, the U.S. Mint changed from a copper cent to a zinc-coated steel version for one year, in 1943. Rumor quickly spread that anyone who found a 1943 copper cent would be rewarded with a car from Ford. Now you can display your collection of the legendary Lincoln cents of 1909 to 1958 in this beautiful four-panel coin folder. Larger in size than the average folder, this unit has room for 144 coins, the most of any similar folder.
