George Amick : Linn's 2002 Stamp Yearbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Linn's 2002 Stamp Yearbook:

The Linns U.S. Stamp Yearbook 2002 chronicles the story of each of the 242 collectible varieties of stamps and postal stationery issued by the U.S. Postal Service in 2002. Written by noted philatelic author, George Amick, the Yearbook is a comprehensive resource that provides unprecedented background information including proposed designs that the Citizens Stamp Advisory Committee considered before reaching its final decisions, along with artists original source material.
