I bought these to write letters to my representatives. I also bought several postcard stamps, looked up all the addresses of my state and federal reps and made a bunch of labels for each of them. Now every time I read about something that I think needs to be dealt with, I just jot down my 2 cents on one of these post cards, slap on a label and stamp and in the mail it goes. Way better than emailing them. 57 of 57 people found the following review helpful. More than just the flag By margaritamaudiib This is a great collection of cards - like many other 100 Card sets, there are actually 2 sets of 50. Depending on your preferences, this is good or bad. Personally, I like two sets of 50 because sometimes there are cards that I'd like to keep for my own collection. But that's just me. That being said, these are a fairly interesting set. Not sure what I was expecting, but I was pleasantly surprised to find

a few that were really kind of cool, not just all Americana and "Woohoo, 'Murica!" I really like these a lot and while I actually bought these for Postcrossing, I decided to send a few to friends and relatives for the 4th of July. They thought they were great! These are a great buy, very happy with the purchase, sturdy stock and standard postcard size. Attached some (not all) pics for reference. 6 of 6 people found the following review helpful. beautiful, and very interesting  
By Jennifer F. These postcards are patriotic, beautiful, and very interesting. They are perfect for writing congressmen, and a sizable number for postcard parties.
