Not a good book to be used for marble identificationBy Al DonnerThis book didn't meet my expectations. It has some decent photos, but most are blurry. In this book, the machine-made marbles have been divided into two groups, early machine-made marbles (1900 to 1925) and automatic machine-made marbles (1925 to present). Included are nearly 100 full-color photos portraying thousands of marbles, complete descriptions for all marbles featured, and updated values.
