Best book on grading coins I've seenBy LKayHIf you want to learn how to grade coins, this is the book for you. Other books have photos and some grainy images. This one has clearer photos and explanations of what differentiates each grade.8 of 9 people found the following review helpful. best grading bookBy popcultureloverby far the best book for grading coins I have found. the highly detailed color photos are much better than the low quality black and white found in other grading books. although this book isn't perfect, it is the most useful at this moment,

The 3rd edition features more than 80 coin series for both classic and modern U.S. coins. Through the use of hundreds of full color photographs and in-depth analysis you can improve your knowledge of coin grading and gain keen

insights into the highly competitive business of coin grading. Use the exclusive color maps to locate and identify the severity of imperfections that affect a coin's surface and, ultimately, its grade and value. It is the kind of book that will pay dividends on your next buying and selling decisions.
