DETECTING LIBRARY. By Chief I have most if not all of Mark's books. I learn something from all of them. With them on my Kindle they go with me everywhere so I can go back and review them where ever I am. They are not only educational but entertaining, most of the books out there are dry and just talks about metal detecting which is alright and you do learn from them. Mark not only talks about the best machines to use for whatever detecting you are into but he throws in his own experiences and makes them interesting and fun to read. 5 of 5 people found the following review helpful. I have several of Mark's books, and in "Metal ... By C. Gadowski I have several of Mark's books, and in "Metal Detecting Gold" Mark hits another home run. Mark explains in both layman's terms and also delves into the somewhat more advanced instruction on researching and hunting gold --- his down to earth writing is enjoyable to read. Mark removes the mystery and confusion that many have on hunting gold and covers everything from origins to locations to movement to research and recovery. Any serious metal detectorist will have a certain number of books on the subject in his library -- This book belongs among the top three. This book alone is its own treasure; I do not make that statement lightly. As in and near Wyoming. 3 of 3 people found the following review helpful. Absolutely worth having! By TerMyself, I loved this book. Mr. Smith throws in humor, that to many may seem silly, that I found helped me connect more with the author and real life in general. In addition he gives great information on detectors as well as detecting. I've found myself a student of gold prospecting and learning the craft and his refresher on knowledge of finding gold was totally a bonus! It is a member of my reference library now.

"I found my first gold nugget using the information in this book! I can't wait to find my second!" - Chad in Arizona
"Packed full of great gold prospecting tips any person can benefit from!" - Bob in Arizona
"Saved me a ton of time trying to figure out which metal detector was the right choice for gold prospecting!" - Vince in Nevada
"Now I know exactly why, where and when I can find gold using the right metal detector. I am pumped and ready!" Jim in Colorado
"I've been gold prospecting the old fashion way for over 25 years. I thought it was about time I tried finding gold with a metal detector. This book told me everything I needed to know!" - Mike in California
"This is my 3rd book by Mark Smith and it leaves no stone unturned. Great information, easy to understand pictures, detailed illustrations and a great sense of humor kept me reading until the end. Thanks for another great book Mark!" - Kurt in Colorado
