Joe Lyndhurst : Military Collectibles: An International Directory of 20th Century Militaria before purchasing it in order to gage whether or not it would be worth my time, and all praised Military Collectibles: An International Directory of 20th Century Militaria:

2 of 2 people found the following review helpful. A good book to start with.
By John F. Guibert
This is a great book to start a collection of military Items with. Its is very well illustrated and has clear and neat text. What it is not is a price guide, or all inclusive guide to one period in history. This was the first book I purchased on militatry collectibles and its the one I go to first when I want a quick id of an item.

By steve tatham
Nice Reference

Lists more than three thousand individual items and accompanying photographs as collected from twenty different countries, and encompasses military collectibles from World War II, Vietnam, South Africa, the Faulklands, and more.
